Lots of money by itself doesn't make you abundant. Abundance is an emotional experience... a feeling we either have... or don't.

We're not discounting the usefulness of money. It is okay to desire it, work for it, enjoy it. Just keep your focus on the fact that it is not money you want... it's how you will feel, laugh, play, and explore with that money. Knowing this can give us balance and power in our lives... and make Abundance something you can experience NOW... not just when you "get enough money." We can show you how to use Energy Tapping (EFT) so you can eliminate emotional distress... so you can start using your authentic gifts to bring more financial abundance into your life.
