When a tough, ice-cool cage fighter meets her match in two hot as sin dragon shifters, the sparks fly. Ice is a tough cage fighter who has spent her life closed off and mostly alone. As a child, she experienced moments where she burned others with a mere touch. These strange experiences terrified and confused her, but she knows if she keeps her emotions under control the burning doesn't happen. This iron self-control has made her a fearsome opponent in the ring. When two sexy as sin strangers enter her life, telling her they can shed light on her mysterious 'gift', her world is turned upside down. Nathan, leader of the Scottish Dragon clan, is shocked to find Ice, a dragon female, living in the human world.

Not only is she unaware of her heritage, she is also a match made in heaven for Nate and his bonded male, Dom. When Nathan calls him to the city to meet their mate, Dominic is immediately smitten. As Ice spends time with the two males, it becomes clear they all share a mutual desire but are too scared to act on their feelings. Can their heady, lust-filled nights lead to a lasting commitment and happiness for all three? Ice can be read as a stand alone.

It is a MMF, shifter menage novel. HEA guaranteed.
