There are two things on Mimi's mind—her lover Rick, and how he's finally given in and bound her as she wants. Everything is wonderful, until a mysterious trip calls him away. With Rick gone, Mimi tries to back out of walking the runway at the Safe, Sane and Consensually Wild fashion show, where she and her lover were set to model leather goods and put on a wild sex show for the finale. But she's the muse behind the collection and the designer, her friend, and he won't hear of her not modeling. When a misunderstanding threatens to tear them apart, it turns out the fashion show could bring Mimi and Rick closer together. Note from the Author: Taken, a contemporary erotic romance + BDSM, Leather and Lots of Toys [i really mean lots of leather and toys] at 20.6k words, and this is its third release.
