Outside of Smithville, life for the Mackenzie twins is getting better. Starting over isn't easy, but Dominic and Mason are doing their best to get by and stay together.

Although Dom landed a position easily, Mason is left struggling to find work. Despite the lack of career prospects, he revels in the freedom to be honest about his sexuality and embraces the local gay community. Making new friends comes easily to him. When one of those acquaintances discovers the secret side of the brother's relationship, Mason and Dominic use the only assets they own to ensure his silence.
