From the deepest, darkest reaches of space came the greatest threat the federation had ever faced: the Borg. Half organic/half mechanical, the Borg were relentless and bent on conquering and "assimilating" all intelligent life; a single Borg vessel destroyed 39 Federation starships, decimating Starfleet. Stronger and more dangerous than ever, they are ready to launch a new attack against the Federation, one that threatens its past... its present... and its future. Only the courage and determination of Captain Jean-Luc Picard and his crew can prevent the Borg from striking at the heart of the Federation and Earth.
