Parents and children will love this colorful boardbook - sturdy for even the most boisterous child - in a fun and imaginative die-cut shape. As you read and turn the page, it's as if you're diving under the ocean, counting sea creatures.

Learning has never been so fun! At the back of the book, all the sea creatures are gathered and identified - they can all be found in Hawaii's waters.

Imaginatively drawn by local artist Johann Bosgra, Diving for Shapes in Hawaii presents a fun way to learn basic shapes and discover the many sea creatures that are found in Hawaii's waters. About the Illustrator Johann Bosgra is a local artist from Hawaii Kai. His artwork is popular and shows in various galleries and cafes around town.
