Once upon a time there was a princess who learned that she liked to have sex, and lots of it.

In this contemporary fairy-tale, Jade Redfearn has led a sheltered life, but now must choose one of three brothers as her partner. Will it be athletic tennis coach Joe, shy genius Adam, or ultra-successful Luke? With the help of her wealthy father's all-knowing PA Gwendolyn, Jade sets out on a quest to find out. A very adult tale from the author of *You, Letting Go*, and the *Girls' Club* series. This story, told in three encounters, includes explicit descriptions of a variety of sexual activities, including oral sex, bondage and multiple partners.
