Book III in the Violet Blake series. Chloe Winter. The name itself strikes fear in the hearts of the only remaining Sanatores left alive, especially those within the Tumultus.

She betrayed them. Revealing the location of the Tumultus and leading to the deaths of count healers. Or so some believe. Chloe Winter has miraculously escaped Escro custody and found her way to the Tumultus hiding away in London. After weeks of trying to regain what is left of her shattered soul, she decides that the torment and hunts from the Pontifex must come to an end. But whose side is she really on? This is Chloe Winter's story.
