Blue Apples Katalina Leon Gala is an elite captain of Diandra's Guard and proud owner of a male harem. When she volunteers to go on a treacherous mission into enemy territory to steal aphrodisiac fruit and defy an ancient foe, she has no idea what this act of trespass will cost her. Lord Veren and his lover, Markeen, are gorgeous swords for hire and warriors supreme. Like all Vertanians they are bigger, stronger, braver and brighter, but they spawn only male children and face a culture in decline. They need female companions. How fortunate for them when they discover a beautiful, lust-intoxicated Diandran wandering in their orchard. The warriors capture Gala and carry her into their fortress for a night of shared lust that may change two ancient cultures forever.
